

# Zammit **R**-Series Wall & Roof Cladding

Architecturally inspired for Australian homes

# R SERIES

Zammit R-Series wall and roof cladding captures the essence of contemporary design, bringing architectural inspiration to your project

## RAPID CLAD

Whether used in long lengths running vertically or horizontally on a structure, or in shorter lengths to create a 'block-like' effect, Rapid Clad is designed to make a bold and stylish statement. Featuring raised panels and recessed 'express' joints, this profile exudes a sleek and contemporary character, enhanced by the shadowed channels that add a pleasing level of detail.

Panel Length	Custom lengths to order
Standard Width	From 285mm to 485mm *special order custom widths
Material Thickness	0.55mm BMT G300 grade steel

Available in all Colorbond and Colorbond Matt colours.  
\* custom colours available on request.

Fast and efficient simple installation using  
concealed fixing

**NATA** Rapid Clad has been independently Testing by the Cyclone Testing Station which is a NATA accredited Laboratory

With our Rapid Seam's exclusive square ribbed profile and our Rapid Clad's sleek flat tray design, our engineered cladding offers modern crisp lines that truly stand out. Whether installed horizontally or vertically, our cladding effortlessly enhances any architectural style, infusing your project with a touch of elegance, and making a lasting impression.
