

Rapid Line Cladding

Streamline Design Lasting Impact

Rapid Line Cladding

Where Innovation Meets Design

Fusing Timeless Elegance with Contemporary Design

Rapid Line Cladding blends traditional board and batten styling with a modern twist, providing a versatile solution that enhances coastal, farmhouse, and Hampton inspired designs with lasting appeal.

Rapid Line Cladding features alternating wide metal boards with slim battens, creating a bold, textured facade.

Its 20x50mm batten profile and 305mm standard cover width offer a sophisticated look, with customizable cover sizes** for bespoke design solutions.

**custom cover sizes available on request

Key Features of Rapid Line Cladding

Versatile Aesthetic

The combination of wide boards and narrow battens delivers visual depth and sophistication.
